Dawson, A. (2011). *What is moral theory?* An excerpt from the presentation: Frameworks and the framing of public health ethics. [Short Video]. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/548/Video.ccnpps?id_article=1098

In this short video of about 4 minutes, Angus Dawson offers a very brief description of what a moral theory is, with three examples.

CIHR-Institute of Population and Public Health, CIHR Ethics Office, National Collaborating Centre for Healthy Public Policy, PHAC-Office of Public Health Practice, & Public Health Ontario. (2011). *From theory to practice: Working towards common principles and frameworks for population and public health ethics*. (Pre-conference workshop. CPHA Annual Conference 2011). Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=658

This document, produced by the Canadian Institutes of Health Research (CIHR) Ethics Office, summarizes the proceedings from a Pre-conference workshop held during the CPHA Annual Conference 2011.

2010

McDougall, C. W. (2010). *A survey of ethical principles and guidance within selected pandemic plans*. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=629

This document provides a survey of the explicit goals, ethical principles, and ethics-related recommendations put forward by a selection of national, sub-national and international pandemic preparedness plans and policies. This survey provides a concise comparison of several ethical frameworks in order to help us to think about how we might deliberate to justify difficult decisions in the context of an actual public health emergency.

McDougall, C. W. (2010). *Ethical questions during a pandemic*. (Case studies). Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=320

A collection of pandemic and infectious disease control scenarios, intended to stimulate ethical reflection within the public health sector.

McDougall, C. W. (2010). *Public health ethics - Selected resources: Ethics in a pandemic*. (Inventory). Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=609

An introduction to the field of public health ethics (PHE) as applied to policy and practice responses in times of pandemic. It contains a selection of relevant, representative, and accessible works that together provide a foundation for exploring the ethical implications of infectious disease control and pandemic response. In it, you will find short summaries of a selection of seminal papers, frameworks and guidelines; links to additional resources on ethics and pandemics, including articles, presentations, case studies and other learning tools, and pertinent websites, blogs, and news sources.

Weinstock, D. (2010). *Health in political philosophy: What kind of a good is it?* (Presentation summary). Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=313

As part of a collaborative project between the NCCHPP and the *Centre de recherche en éthique de l'Université de Montréal-CRÉUM* (University of Montréal Research Centre in Ethics,) philosopher and Professor Daniel Weinstock gave a presentation on distributive justice in health. The goal of this presentation was to map out some of the key issues in current research on distributive justice as they may be relevant to individuals promoting public policies targeting equity. This document summarizes Dr. Weinstock's presentation.

2009

Désy, M. (2009). *Autonomy promotion in a pluriethnic context: Reflections on some normative issues*. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=234

This paper is part of a series of essays developed for the NCCHPP by researchers associated with the Centre de recherche en éthique de l'Université de Montréal (University of Montréal Research Centre in Ethics) in a project examining ethical issues related to healthy public policy. This text, developed by Michel Désy, deals with specific ethical concerns related to the promotion of autonomy in a pluriethnic context.

Landes, X. (2009). *The use of incentives and the promotion of healthy behaviours: The case of unhealthy food*. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=260

This paper is part of a series of essays developed for the NCCHPP by researchers associated with the Centre de recherche en éthique de l'Université de Montréal (University of Montréal Research Centre in Ethics) in a project examining ethical issues related to healthy public policy. In this text, Xavier Landes examines some ethical issues raised by the use of financial incentives to promote healthy eating habits.

McDougall, C. W. (2009). *List of public health ethics researchers and instructors across Canada*. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=293

A preliminary inventory of individuals engaged in public health ethics-related research and teaching across the country.

2008

Beloin, V. (2008). *Public policies guided by the precautionary principle*. Montréal, Québec: National Collaborating Centre for Healthy Public Policy. Retrieved from: http://www.ncchpp.ca/127/Publications.ccnpps?id_article=210

This paper is part of a series of essays developed for the NCCHPP by researchers associated with the Centre de recherche en éthique de l'Université de Montréal (University of Montréal Research Centre in Ethics) in a project examining ethical issues related to healthy public policy. In this paper, Valérie Beloin addresses the use of the precautionary principle in public health and examines its relevance for this specific sector.

The National Collaborating Centre for Healthy Public Policy (NCCHPP) seeks to increase the expertise of public health actors across Canada in healthy public policy through the development, sharing and use of knowledge.

The NCCHPP is one of six centres financed by the Public Health Agency of Canada. The six centres form a network across Canada, each hosted by a different institution and each focusing on a specific topic linked to public health. In addition to the Centres' individual contributions, the network of Collaborating Centres provides focal points for the exchange and common production of knowledge relating to these topics. The National Collaborating Centre for Healthy Public Policy is hosted by the Institut national de santé publique du Québec (INSPQ), a leading centre in public health in Canada.

Production of this document has been made possible through a financial contribution from the Public Health Agency of Canada through funding for the National Collaborating Centre for Healthy Public Policy (NCCHPP). The views expressed herein do not necessarily represent the views of the Public Health Agency of Canada.
